Front plate 50x50 central plate, RAL9003 with 1x DN-93615-S Keystone Modul

The DIGITUS® network connection module with CAT 6A compact Keystone combo pack offers a comprehensive and reliable solution for high-performance structured cabling installations. The front panel is designed for seamless integration with shielded DIGITUS® Keystone modules and features built-in dust covers that protect the connection from dust and external contaminants, while the module's vertical orientation at a 45° angle allows for convenient cable routing and easy access to the patch cables. The included shielded CAT 6A Compact Keystone module (DN-93615-S) supports high-speed data transmission and future-proof network standards, and offers tool-free installation as well as 360° shielding. Its compact design allows for flexible use in compatible modular jacks and high-density installations. By combining both components into a single package, the solution ensures guaranteed compatibility while simplifying procurement and installation.

Offers a ready-to-install network connection solution that reduces installation effort while ensuring precise component compatibility and a reliable connection.
