DIGITUS HDMI High Speed with Ethernet Connection Cable

AK-330107-020-S
EAN 4016032290957

HDMI High Speed connection cable, type A M/M, 2.0m, Ultra HD 60p, gold, bl

With this cable standard, this high-speed HDMI cable supports all of today's requirements - from the playback of high-resolution UHD 4K content, including in 3D, via bidirectional audio transmission (ARC), to the control of HDMI devices via CEC. You can also use Internet applications via the HDMI cable without having to connect an additional Ethernet cable. With lip sync, you will never experience time-shifted lip movements again. In addition, you can use this cable to transfer up to 32 audio channels, as well as enjoy the image output in 21:9 Cinemascope format. Get more out of your Blu-Ray player, game console or HD streaming portal. Gold-plated contacts and triple shielding of the cable ensure maximum conductivity and trouble-free transmission.

4K/Ultra HD and 3D capable + Ethernet connectivity

- Support up to 4K / 60Hz
- Support 3D
- Support Audio Return Channel (ARC)
- Support Consumer Electronic Control (CEC)
- Support Lip-Sync (audio/video synchronisation)
