ASSMANN System Guarantee

1. Solutions eligible for guarantee cover

The DIGITUS[®] Professional Copper Cabling System is composed of the DIGITUS[®] Professional cable types in combination with the DIGITUS[®] Professional connection elements as listed below.

Guarantee coverage is limited to DIGITUS[®] Professional copper cabling systems;

it does not extend to combinations of unshielded and shielded components.

2. Approved permanent links

In general, the guarantee will only be granted for the "permanent link" of the installation link.

Standards:

Class D EN-50173-1:2011; ISO/IEC 11801:2002/A2:2010
CAT 5e TIA/EIA 568 C. 2-10

Class E EN 50173-1:2011; ISO/IEC 11801:2002/A2:2010
CAT 6 TIA/EIA 568 C. 2-10

Class Ea EN20173-1:2011; ISO/IEC 11801:2002/A2:2010
CAT 6A TIA/EIA 568 C. 2-10

EN (CENELEC) (European Committee for Electrotechnical Standardization)
ISO/IEC (International Organization for Standardization, International Electrotechnical Commission)

TIA/EIA (Telecommunications Industry Association, Electronic Industries Association)

3. Installations including multi-class/category components

Mixed usage of DIGITUS[®] Professional copper components means that the ASSMANN system guarantee will be granted based on the lowest category or class of the components used.
