DIGITUS Variable Notebook Stand with integrated USB-C™ Docking Station, 8 Port

DA-90408
EAN 4016032474616

USB-C Dock (8-Port) with Notebook Riser silver/white

The adjustable notebook stand from DIGITUS® combines ergonomic design and connectivity in one convenient unit. You can easily adjust the angle of inclination to your height in 4 levels. Your notebook can be connected via the USB-C™ port, allowing you to access all interfaces of the integrated docking station. On the front side there is a fully functional USB-C™ port, two USB A ports (USB 3.0) and a card reader for SD and microSD cards. On the back side it is possible to connect two monitors (HDMI + VGA), an RJ45 network cable (LAN) as well as a USB-C™ power adapter that can deliver charging power (Power Delivery) for devices such as a connected notebook. Use the advantages of ergonomic design and connectivity in a single unit with the DIGITUS® notebook stand with integrated docking station.

Notebook stand with integrated docking station – unites ergonomic design and connectivity in a portable solution

- 1 x HDMI port: 4K / 30 Hz
- 1 x VGA connection: 1080p
- 1 x RJ45 connection: Gigabit Ethernet interface with 10/100/1000 Mbps bandwidth (LAN)
