

DIGITUS® Antena de haste de LAN sem fios

DN-70105

EAN 4016032200567

Antena LAN sem fios, omnidirecional Ganho de receção: 9dBi, ligação RP-SMA, 38,4cm

Antena LAN sem fios, omnidirecional, ganho de receção: 9dBi, conector RP-SMA, 38,4 cm

Aumenta o alcance e a cobertura da LAN sem fios e melhora a receção

- Antena de haste de LAN sem fios para características de receção melhoradas
- Gama de frequências: 2,4GHz - 2,4835GHz

- Omnidirecional
- Ganho: 9 dBi (ganho de receção)
- Adequado para LAN sem fios de 2,4 GHz
- Ligação: tomada RP-SMA
- Comprimento: 38,5 cm
- Diâmetro: 1,3 cm
- Adequado para todos os produtos DIGITUS Wireless LAN
- Base de antena adequada: DN-70106

Net single without Packaging	1	0.05	1.20	1.20	38.00	86.00

Safety notes

- The performance of the antenna depends heavily on the location. Ensure that the antenna is installed in a location that allows optimum signal distribution, without obstacles such as thick walls or metal objects.
- To avoid sources of interference, antennas should not be installed near electrical devices such as microwaves, radios or other strong sources of interference, as these can affect the signal.
- Avoid direct contact with salty air or other corrosive environments that could damage the antenna or connections.
- Check the antenna regularly for damage, loose connections or dirt. Dust or dirt on the antenna or the connections can significantly impair the signal quality.
- Make sure that the frequency of the antenna matches your network adapter or router.
- Ensure that the antenna in conjunction with the network adapter or router complies with local standards and approvals.

EU responsible person

EU based economic operator ensuring the product complies with the required regulations.
