

DIGITUS® Computer housing with glass door, rolling, lockable, with ventilation slits

DN-CC 9001
EAN 4016032211136

Computer case with castors, 698.5x300x600 mm inner dim. 583x246x600 mm, glass door, RAL 7035

The mobile computer housing from DIGITUS® features robust construction made of 1.5 mm thick steel sheet, which leaves nothing to be desired in terms of value. The front and back door can be locked. Connection cables can be fed in through an opening in the base or an opening in the roof, with integrated foam rubber seals increasing protection against dust and foreign objects. The robust metal-framed casters provide mobility, with the locking brakes preventing undesired movement of the rolling container. The housing is perfect for production lines, warehouses, laboratories and other similar fields of application.

Mobile housing, lockable, rolling, with ventilation slits and glass window.

- 1.5 mm strong sheet steel with high load capacity, powder coated
- 110° door opening angle
