

# DIGITUS® Base magnética para antenas LAN sem fios

DN-70101-1

EAN 4016032271192

**Base de antena LAN sem fios, magnética Conector RP-SMA, cabo de baixa perda de 1,5 m**

Base de antena LAN sem fios, magnética, conector RP-SMA, cabo de baixa perda de 1,5 m

**Aumenta o alcance e a cobertura da LAN sem fios e melhora a receção**

- Adequado para LAN sem fios de 2,4 GHz - para todos os produtos LAN sem fios DIGITUS®.
- Tomada/ficha RP-SMA
- Base metálica forte e magnética
- Comprimento do cabo 1,50 m
- Cabo de baixa perda

## Logistics

	Number (pcs)	Weight (kg)	Depth (cm)	Width (cm)	Height (cm)	cm³

## Safety notes

- The performance of the antenna depends heavily on the location. Ensure that the antenna is installed in a location that allows optimum signal distribution,

without obstacles such as thick walls or metal objects.

- To avoid sources of interference, antennas should not be installed near electrical devices such as microwaves, radios or other strong sources of interference, as these can affect the signal.
- Avoid direct contact with salty air or other corrosive environments that could damage the antenna or connections.
- Check the antenna regularly for damage, loose connections or dirt. Dust or dirt on the antenna or the connections can significantly impair the signal quality.
- Make sure that the frequency of the antenna matches your network adapter or router.
- Ensure that the antenna in conjunction with the network adapter or router complies with local standards and approvals.

**EU responsible person**

EU based economic operator ensuring the product complies with the required regulations.
