Power Cord, Euro - C7 M/F, 1.8m, H03VVH2-F 0.75qmm, black

Digitus Power Cord, Euro - C7 M/F, 1.8m, H03VVH2-F 0.75qmm, black. This is a power cord with a Euro (CEE 7/16) plug and an IEC C7 jack connector. The cord length is 1.8 meters and it is made of black H03VVH2-F 0.75qmm cable. The current load capacity is 250V/2.5A. The connector surface is nickel-plated and the hoods are molded. The lead cross-section is 0.75qmm. The wire material is copper (CU) and the shielding is unshielded. The packaging is a polybag.

Attributes

- Assortment: Device Connection Cables
- Color cable: black
- Color connector: black
- Connector 1: Euro (CEE 7/16), plug

- Connector 2: IEC C7, jack
- Connector surface: nickel-plated
- Current load capacity: 250V/2.5A
- Hoods: molded
- Lead cross-section: 0.75qmm
- Packaging: Polybag
- Wire material: CU
- Length: 1.8 m
- Shielding: Unshielded

Safety notes

- When plugging and unplugging the cable, only grasp the plug and do not pull directly on the cable.
- Cables must not be kinked sharply or bent at tight angles, as this can damage the inner wires and lead to failures.
- Make sure that the cables are not under tensile load, as this can damage the insulation and the wires inside the cable.
- Ensure that cables are not laid in areas where they can be easily damaged mechanically.
- Cables should not be used in environments with extremely high or very low temperatures. Observe the product information on the maximum operating temperature of the cable
- Check cables regularly for visible damage such as cracks, kinks or signs of wear. Defective cables should be replaced immediately to avoid failures, short circuits or even electric shocks.

EU responsible person

EU based economic operator ensuring the product complies with the required regulations.
