EAN 4016032321712

CAT 6 S-FTP patch cord, Cu, LSZH AWG 27/7, length 2 m, color grey

DIGITUS® CAT 6 S-FTP patch cord, Cu, LSZH AWG 27/7, length 2 m, color grey. This patch cord is designed for high-speed data transmission and is compliant with the ISO/IEC 11801 standard. It features a 250 MHz bandwidth and is suitable for applications requiring reliable and secure data transfer. The cable is constructed with a twisted pair structure and is shielded with metal foil and braid to minimize crosstalk and electromagnetic interference. The connectors are made of high-quality plastic and are designed for easy installation and removal. The cable is available in a length of 2 meters and is packaged in a standard retail box.

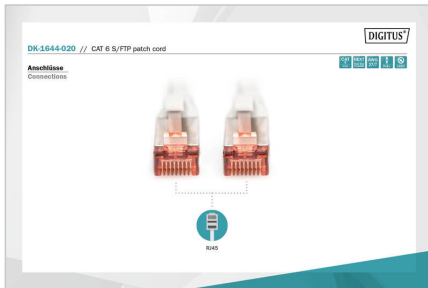

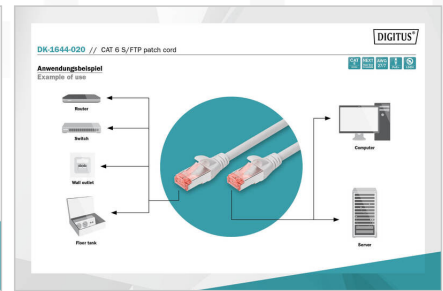

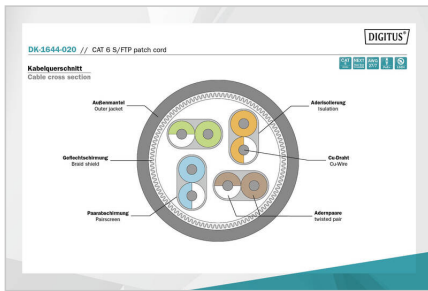

- 2 RJ45 (8P8C)
- 250 MHz bandwidth, LSZH, shielded, twisted pair
- 250 MHz bandwidth, LSZH, shielded, twisted pair
- Conductor material: Copper (Cu)

Attributes

- Configuration: 1:1
- Connector 1: Modular RJ45 (8/8) plug
- Connector 2: Modular RJ45 (8/8) plug
- Packaging: Digital Polybag
- Category: CAT 6
- Shielding: S-FTP, pairs in metal foil and braid shielding
- Length: 2 m
- Color: grey
- Jacket: LSOH
- Slim Version: no
- Structure: 4 x 2 AWG 27/7, twisted pair
- Flat Version: no

Safety notes

- When plugging and unplugging the cable, only grasp the plug and do not pull directly on the cable.
- Cables must not be kinked sharply or bent at tight angles, as this can damage the inner wires and lead to failures.
- Make sure that the cables are not under tensile load, as this can damage the insulation and the wires inside the cable.
- Ensure that cables are not laid in areas where they can be easily damaged mechanically.
- Cables should not be used in environments with extremely high or very low temperatures. Observe the product information on the maximum operating temperature of the cable
- Check cables regularly for visible damage such as cracks, kinks or signs of wear. Defective cables should be replaced immediately to avoid failures, short circuits or even electric shocks.
