## CAT 6A Class EA patch panel, shielded, 0.5U 24-port RJ45, incl. dust cover, 8P8C, black

The DIGITUS® 24-port patch panel offers a very high packing density with only 0.5 U. This means that up to 48 ports can be implemented on 1 U with two 0.5 U panels. The patch panel is shielded and equipped with dust protection caps on the RJ45 sockets. The 360° shield contact of the cables ensures the best performance characteristics. The installation cables can be securely fixed with the integrated cable clamps. The quick-release fastener on the housing ensures easy and tool-free access to the LSA insulation displacement connectors.
