

# DIGITUS® Conjunto de extensor VGA UTP

DS-53400

EAN 4016032356721

**Extensor VGA via UTP, definir máx. 1920x1200, 300m de extensão de sinal, 0-70°C**

Prolonga um sinal VGA até 300 metros, utilizando apenas um simples cabo UTP entre as unidades transmissora e receptora.

**Proporciona uma distribuição simples e rápida de sinais de vídeo VGA até uma distância de 300 metros - coloque os seus ecrãs onde quiser.**

- Extensor VGA Cat 5 constituído por uma unidade emissora e uma unidade receptora
- Possibilidade de altas resoluções até 1920 x 1200 píxeis
- Suporta a extensão de sinais de áudio estéreo
- Dimensões (C x L x A): 110 mm x 75 mm x 25 mm
- Peso: 213 g (transmissor), 208 g (receptor)
- Temperatura de funcionamento: 0 °C ~ 70 °C
- Humidade: 10 % a 85 % (sem condensação)
- Ligação eléctrica: 5 V @ 1 A, máx. 5 W

- Compressão: Sem compressão

**Attributes**

- HDTV Standard: Full HD
- Resolution max.: 1920 x 1200 Pixel, 60Hz
- Category: CAT 5e
- Distance: 300 m
- KVM: no
- PoE (Power over Ethernet): no
- Transmission technology: CAT
- Video connection ports: VGA

**Package contents**

- 1x Extensor DIGITUS® VGA UTP
- 2 x fonte de alimentação (5 V/1 A)
- 1x manual do utilizador

**Safety notes**

- If the device is powered by a plug-in power supply, ensure that the power adapter is connected correctly and meets the specified requirements (e.g. voltage and current).
- Only use certified CAT5e or CAT6 cables to ensure stable signal transmission.
- For particularly long cable runs or in environments prone to interference, it is recommended to use shielded network cables.
- Make sure that all connections are tight and secure to avoid loose contacts that could affect the signal quality. Make sure that the HDMI and Ethernet connections are connected correctly.
- Make sure that the CAT cable is not laid near high-voltage power lines or other strong sources of electromagnetic interference to avoid signal interference.
- Only operate the device within the specified temperature range.
- Do not use the device outdoors or in damp or wet environments
- Check all connections and cables regularly for wear or damage. Cables and connections can wear out, especially with frequent use or long installations, which can lead to poor signal quality or system failure.

**EU responsible person**

EU based economic operator ensuring the product complies with the required regulations.
