DIGITUS® SFP+ 10G SM 1310nm 10km compatível com HP com DDM

DN-81201-01

EAN 4016032370031

SFP+ 10G SM 1310nm 10Km compatível com HP com DDM Conector LC duplex, perda de potência < 1W

Os módulos transceptores DIGITUS® Mini GBIC (SFP) oferecem a mais elevada qualidade e fiabilidade. Quer seja de comutador para comutador, conversor para comutador, conversor para conversor ou outras possibilidades de aplicação alargadas: A grande variedade de módulos DIGITUS® permite-lhe utilizar a tecnologia de fibra ótica de forma flexível. A conformidade com a norma MSA (Multi Source Agreement) assegura a compatibilidade com fabricantes terceiros.

A ligação de fibra ótica "plug and play

- Módulo Mini GBIC SFP (Small Form Fator Pluggable)
- Suporta DDM (Monitorização de Diagnóstico Digital)
- Alta qualidade e máxima fiabilidade
- 10 Gbps Débito máximo de dados
- Em conformidade com a norma IEEE802.3ae 10 Gigabit
- Produto laser de classe 1 de acordo com a norma EN 60825-1
- Fácil instalação plug and play
- Compatível com MSA (Multi Source Agreement)
- Ligável a quente
- Ligação: 1x LC Duplex
- Comprimento de onda: 1310 nm
- Potência de transmissão: mínimo -8 dBm, máximo -0,5 dBm
- Sensibilidade de receção: Mínimo -12,5 dBm
- Para uma distância até 10 km
- Mecanismo seguro de libertação rápida
- Temperatura de funcionamento: 0 °C ~ 70 °C
- Compatível com HP
- Compatível com HP-Aruba

Attributes

- Mode: Singlemode
- Connector: LC
- Distance (km): 10
- Wavelength: 1310 nm
- DDM Support: yes
- Broadcasting Mode: Unidirectional
- Manufacturer compatibility: HP
- Ethernet speed: 10 Gigabit

Package contents

- Módulo SFP

Logistics

	Number (pcs)	Weight (kg)	Depth (cm)	Width (cm)	Height (cm)	cm³
Packaging Unit Carton	20	2.00	41.00	26.00	16.00	17,056.00
Packaging Unit Inside	1	0.10	3.00	11.50	9.00	310.50
Packaging Unit Single	1	0.10	3.00	11.50	9.00	310.50
Net single without Packaging	1	0.03	5.50	1.20	0.80	0.00

Safety notes

- Avoid direct contact with light sources: Fiber optic cables, especially those with active light sources such as lasers (e.g. in optical communication systems), can emit dangerous radiation that can damage
- eyes. Take care never to look directly into the light of an optical fiber, even if the light source is invisible to the naked eye.
- When working with fiber optic cables, especially during tests or when working with lasers, protective goggles should always be worn to protect against harmful radiation.
- When plugging and unplugging the cable, only grasp the plug and do not pull directly on the cable.
- Do not kink or crush: Fiber optic cables are sensitive to mechanical stress.
- To protect cables from physical damage, they should be laid in special ducts or with protective materials
- Keep cable connectors clean: Fiber optic cables are sensitive to dust and dirt. Even small particles on the connectors can severely impair the signal quality.
- Cables should not be used in environments with extremely high or very low temperatures. Observe the product information on the maximum operating temperature of the cable
- Check cables regularly for visible damage
