

DIGITUS USB-C 3.2 Gen 1 to HDMI Graphic Adapter

DA-70836
EAN 4016032385950

USB-C 3.2 Gen 1 to HDMI Graphic Adapter 1x HDMI, 4K/60Hz, Aluminium Housing, Silver/White

The USB-C 3.2 Gen 1 to HDMI Graphic Adapter is the ideal solution for connecting your notebook to a UHD TV, monitor or projector with an HDMI connection. Experience razor-sharp 4K videos and crystal-clear sound thanks to audio support for various formats. Whether for business presentations, video conferences or editing graphics, this portable adapter ensures razor-sharp images and precise color display on larger screens. Thanks to the plug-and-play function, no additional software is required and the compact, lightweight design with aluminum housing makes the adapter ideal for mobile use. The adapter is backwards compatible with older HDTVs and projectors, allowing seamless connection with existing devices.

The USB-C 3.2 Gen 1 to HDMI Graphic Adapter offers a reliable solution for razor-sharp 4K video transmission and clear audio quality, ideal for professional presentations or high-quality media playback

Safety notes

- Overloading can lead to overheating and damage to the appliance or the connected peripherals.
- If necessary, use an external power supply to ensure stable performance.
- If devices such as external hard disks or printers that require a high power consumption are connected, the device should be used with an external power supply. Otherwise, the device could be overloaded or functional problems could occur.
- Do not expose the device to rain, moisture, vapors or liquids.
- Do not insert any objects into the device.
- Do not attempt to repair the unit or open the housing without authorization. You risk an electric shock!
- Ensure adequate ventilation to prevent damage due to overheating.
- Dust, moisture, vapors and strong cleaning agents or solvents can cause damage to the device.
- Disconnect the appliance from the power supply and the connected devices before cleaning.
- Clean the device with a dust-free cloth.
