

DIGITUS® Repetidor Gigabit Ethernet PoE+, 802.3at, 22 W

DN-95123

EAN 4016032391531

Repetidor Gigabit Ethernet PoE+, 802.3at 1 porta, pinos de alimentação: 3/6(+), 1/2(-), 22W

O Extensor Gigabit PoE+ DIGITUS suporta o mais recente cabo de rede e tecnologia de rede para alargar o seu sinal Ethernet até 100 metros por unidade (até 500 m de alcance total). O amplificador é alimentado através de PoE (Power over Ethernet), pelo que não necessita de uma fonte de alimentação adicional e pode utilizar o dispositivo onde não existam linhas ou tomadas eléctricas para aumentar significativamente o seu alcance. É uma solução perfeita, económica e que poupa tempo para a monitorização de segurança, por exemplo.

Prolonga uma ligação PoE existente para além do limite de distância de 100 m

- Velocidade Ethernet: 10/100/1000Mbps Gigabit Half/Full Duplex
- Norma PoE: IEEE802.3af / IEEE802.3at
- Alcance até 500 m (através de cascata)
- Possibilidade de ligação em cascata até 3 extensores (af.) e até 4 extensores (at.)
- Instalação Plug and Play - não é necessária qualquer configuração

- Potência máxima de saída PoE: 22 watts
- LEDs de estado no dispositivo (PoE e indicador de rede)
- Proteção contra sobretensão e curto-circuito
- Pontos de fixação para montagem na parede
- Entrada de pinos PoE: 1/2 (-), 3/6 (+) e 7/8 (-), 4/5 (+)
- Saída dos pinos PoE: 1/2 (-), 3/6 (+)
- Temperatura de funcionamento: -10 a 45 ° C
- Dimensões (C x L x A): 127 mm x 47 mm x 37 mm
- Peso: 140 g
- Cor: preto
- Especificação do consumo de energia: DC 44- 57V / 0,6A
- Dispositivo Consumo de energia (máx.): 5W

Attributes

- Industrial usage: no

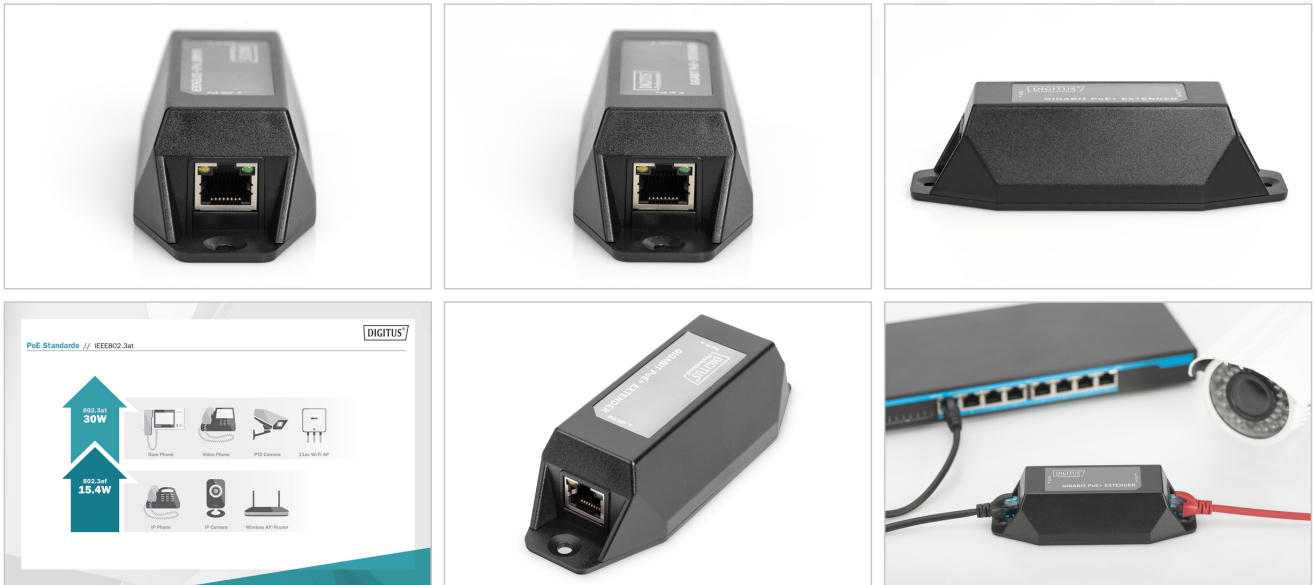

Package contents

- Extensor PoE+
- Instruções de utilização

Safety notes

- This product is intended for indoor use only.
- Read all instructions and follow all warnings and instructions on the device.
- Do not place this appliance on an unstable surface (such as a trolley, stand, table, etc.).
- Do not use this appliance near water.
- Do not place this appliance near or above a radiator.
- The housing is equipped with openings for heat dissipation and ventilation. To prevent overheating during operation, the ventilation openings must not be blocked or covered.
- Do not place the appliance on a soft surface (e.g. bed, sofa, blanket, etc.). This will block the ventilation.
- The appliance must not be installed in a closed environment if adequate ventilation is not guaranteed.
- Do not spray any liquids onto the appliance.
- Disconnect the mains plug before cleaning. Do not use any liquid or foam cleaners.
- Clean the appliance with a damp cloth.
- Connect the device according to the power supply on the rating plate.
- To prevent damage to the appliance, it is important that all appliances are properly earthed.
- Do not place any objects on the power cable and lay it in such a way as to avoid tripping hazards.
- Use a surge protector, a regulator or an uninterruptible power supply (UPS) to protect your system from sudden, temporary and reduced power.
- Secure the system cable and mains cable properly and ensure that no objects are pressing on the cable.
- Do not insert any objects into the appliance through the openings in the housing. There is a risk of a short circuit, which can lead to fire or electric shock.
- Do not attempt to repair the appliance yourself. Always contact an authorized customer service centre.
- If any of the following conditions occur, unplug the appliance and return it to an authorized service centre for repair
 - The mains cable, power supply unit or plug for the power supply is damaged or worn;
 - Liquid has penetrated the appliance;
 - The device has been exposed to rain or water;
 - The device has been dropped or the housing has been damaged;
 - The function of the device has obviously changed;
- The appliance cannot be operated as described in the operating instructions.
