

# DIGITUS® Módulo IP para comutadores KVM

DS-51000-1

EAN 4016032430018

## Módulo IP para comutadores KVM para DS-23200-2, DS-23000-2, controlo remoto

Os módulos DIGITUS® IP são ideais para a utilização de comutadores KVM em salas de servidores de pequena e média dimensão, onde o acesso do administrador deve ser garantido a qualquer momento a partir de qualquer local. Eles fornecem uma ligação direta através de um computador KVM aos computadores ligados através de uma ligação à Internet existente.

### Acesso remoto via LAN, WAN ou Internet

- Acesso remoto KVM (teclado, monitor, rato) através de IP
- Acesso remoto via LAN, WAN ou Internet

- Controlo total em todos os sistemas operativos, nas definições da BIOS, durante o arranque ou com ecrãs azuis
- Interruptor de seleção de porta remota
- Manutenção remota através de interface web
- Encriptação DES para todos os dados transmitidos
- Acesso IP com 10/100/1000Mbps via LAN

### Attributes

- Number of ports: 0

### Package contents

- Módulo IP para comutadores KVM
- QIG (Guia de Instalação Rápida)

**Safety notes**

- This product is intended for indoor use only.
- Read all instructions.
- Follow all warnings and instructions on the device.
- Do not place this appliance on an unstable surface (such as a trolley, stand, table, etc.).
- If this appliance falls, it can cause serious damage.
- Do not use this appliance near water.
- Do not place this appliance near or above a radiator.
- The housing is equipped with openings for heat dissipation and ventilation. To prevent overheating during operation, the ventilation openings must not be blocked or covered.
- Do not place the appliance on a soft surface (e.g. bed, sofa, blanket, etc.). This will block the ventilation.
- The appliance must not be installed in a closed environment if adequate ventilation is not guaranteed.
- Do not spray any liquids onto the appliance.
- Disconnect the mains plug before cleaning. Do not use any liquid or foam cleaners.
- Clean the appliance with a damp cloth.
- Connect the device according to the power supply on the rating plate.
- This device is designed for the IT distribution system with 100 V - 230 V voltage.
- To prevent damage to the appliance, it is important that all appliances are properly earthed.
- Do not place any objects on the power cable and lay it in such a way as to avoid tripping hazards.
- If an extension cable is used for the appliance, make sure that the total capacity of all products using the cable does not exceed the current load.
- Ensure that the total current of all products connected to the socket does not exceed 15 A.
- Use a surge protector, a regulator or an uninterruptible power supply (UPS) to protect your system from sudden, temporary and reduced power.
- Secure the system cable and mains cable properly and ensure that no objects are pressing on the cable.
- Do not insert any objects into the appliance through the openings in the housing. There is a risk of a short circuit, which can lead to fire or electric shock.
- Do not attempt to repair the appliance yourself. Always contact an authorized customer service centre.
- If any of the following conditions occur, unplug the appliance and send it to an authorized service centre for repair
  - The mains cable or plug is damaged or worn;
  - Liquid has penetrated the appliance;
  - The device has been exposed to rain or water;
  - The device has been dropped or the housing has been damaged;
  - The function of the device has obviously changed;
- The appliance cannot be operated as described in the operating instructions.

**EU responsible person**
