CAT 6A EA patch panel, shielded, 24-port RJ45 dust cover, 8P8C, 0.5U, grey RAL 7035

The DIGITUS® 24-port patch panel offers a very high packing density with only 0.5 U. This means that up to 48 ports can be implemented on 1 U with two 0.5 U panels. The patch panel is shielded and equipped with dust protection caps on the RJ45 sockets. The 360° shield contact of the cables ensures the best performance characteristics. The quick-release fastener on the housing ensures easy and tool-free access to the LSA cutting terminals.
