DIGITUS® Cable Roller, 600x400x100 mm

DN-CR-001

EAN 4016032455615

Cable Roller, 600x400x100 mm

The cable drum unwinder is indispensable for larger cabling projects, whether on construction sites or in server farms. It facilitates the torsion-free unwinding of drums of all kinds and protects the material at the same time. The dispenser is suitable for rolls up to 540 mm and is designed for drums weighting up to 150 kg. Due to the individually adjustable carrying drums, cable drums with a diameter of 102 - 600 mm can be accommodated. Due to its low weight of only 6 kg, the unwinder is easy to transport. The galvanized steel makes the maintenance-free dispenser a durable, robust product.

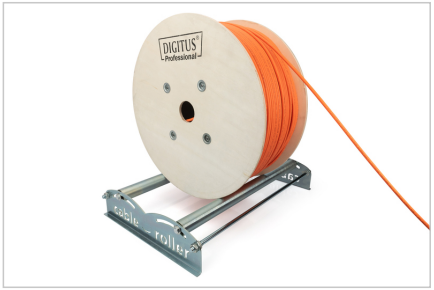

Smart Solution for the easy winding and unwinding of large cable drums

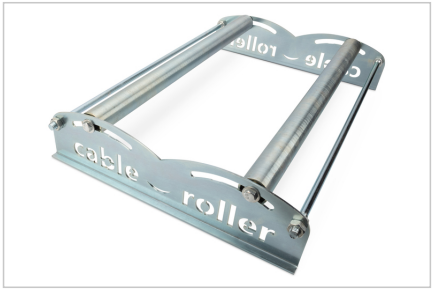

Package contents

- 1 x Cable Drum Roller, 600x400x100 mm

Safety notes

- Avoid using network test devices in damp or wet environments, as this can lead to short circuits or electric shocks.
- Only use the device in the specified operating temperature ranges and avoid extreme humidity.
- Never connect the tester to unauthorized sources or excessively high voltages. Overloading can damage the device or lead to dangerous situations.
- Check the respective tools for obvious defects before each use.
- Remove damaged hand tools from use immediately and repair them professionally or replace them if necessary.
- Clean tools after use.
- Store safely and clearly.
