

# DIGITUS Extendible Shelf for Tablets, Notebooks, Smartphones

DN-97665

EAN 4016032463085

## Extendible shelf for tablets, laptops, smartphones 175x483x340 mm, black (RAL 9005)

With this special shelf, you can use any standard 482.6 mm (19") cabinet to store your portable devices such as tablets, notebooks or smartphones. Sturdy steel brackets provide space for up to 14 devices. Cable feedthroughs are located on the front to connect the devices optimally with cables, for instance when charging from a power source. A storage space for excess cable is provided on the bottom. For user-friendly operation, the shelf can be extended forwards after installation to access the connected components quickly and easily. At the 482.6 mm (19") level, only one rack unit is required to mount the shelf. The complete height including the metal brackets is 175 mm.

### The ideal solution for storing and charging your portable devices in a standard network or server cabinet.

- 482.6 mm (19") installation on one rack unit (4.5 rack units required for full height)

- Extendible (Maximum pull-out depth: 620 mm)
- Stable sheet steel
- Max. usable depth for device storage: 250 mm
- Required depth between profile rails for 4-point installation: 345 mm
- 2-point installation possible (rear angle mounting bracket can be unscrewed)
