DIGITUS® Mobile Desktop Charging Cabinet for 10 Laptops/Tablets Up to 13 Inches, UV-C, USB-C

DN-45004

EAN 4016032486145

Charging desktop cabinet, 13", USB-C, UV-C 10 charge bases, fan, 345 x 360 x 370 mm

The DIGITUS® mobile charging cabinet is the ideal, compact solution for storing and charging your portable devices, such as laptops and tablets. Mobile charging cabinets are often used in public facilities, such as schools, to securely store devices in a central location while charging them at the same time. The cabinet features 10 charging slots, each with its own USB port on the front. Thanks to built-in LED indicators, you can monitor the charging process at all times (red: charging; green: charging complete/no device connected). Abrasion-resistant feet ensure a slip-free setup. A built-in fan, combined with ventilation slots, provides active cooling for the cabinet. Built-in UV-C lamps ensure a more sterile environment and thus improved hygiene.

The ideal solution for sterile storage and charging of your portable devices via USB-C™ ports.

- UV-C Lamps for Improved Hygiene
- Steel front door with a 3-point lock
- On/off switch on the side
- Power Input: C19; 110 V/220 V AC, 50/60 Hz, 16 A
- Power cord: 2 meters, C19/grounded plug
- Power output: 3500W
- 10 USB-C™ ports
- Product dimensions (H x W x D) in mm: 345 x 360 x 370 mm
- Depth of the inner shelf: 294 mm
- USB-C™ Port Output: 20W max (9V 2.2A/12V 1.67A) per port; 200W max total
- Temperature Control: Fans start automatically when the internal temperature exceeds 40 °C
- Blue plastic brackets can be removed if necessary

Attributes

- Color: black, RAL 9005
- Suitable for display size: 33 cm (13")
- Number of Devices: 10
- USB connection (charging): USB C
- Additional connection (charging): no
- UV-C disinfection: yes
- Data synchronisation function: no
- Type: Stationary
- Locking type: mechanical

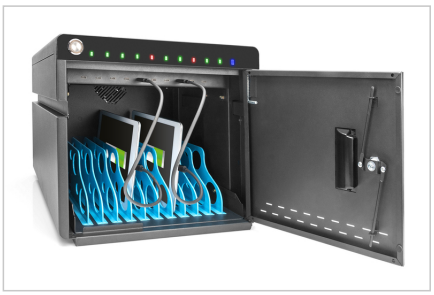

Package contents

- 1 x charging cabinet
- 2 keys
- 1 x power cord
- 1 x Manual

Safety notes

- The product may only be operated on sockets that are protected by a residual current circuit breaker.
- The electrical connection of the product must be made directly to a permanently installed socket.
- The use of multiple sockets or extension cables is not permitted.
- The connection cable must be undamaged. A cable with kinks, crushing or cracks must be replaced immediately.
- Before connecting electrical devices to the product, ensure that the device to be connected, including its connection cable, is in a fault-free and damage-free condition.
- Always insert the plug fully into the socket. It may only be disconnected by pulling on the plug itself - never pull on the cable.
- When operating doors or flaps, care must be taken to ensure that the connecting cables of electrical devices are not crushed or damaged
- Use only in dust and moisture-protected indoor areas
- Prevent higher humidity or temperatures than those specified in the data sheet - Avoid moisture, dust or vapors, solvents, flammable gases.
- Avoid moisture, dust or vapors, solvents, flammable gases.
- The appliance may only be dismantled and transported if the mains plug has been disconnected beforehand.
- Only connect the charging system to an earthed and easily accessible socket.
- Safety must be assessed by a qualified electrician.
- The sockets may only be used with the devices intended for this purpose, for example:
- Chargers for rechargeable batteries and hand-held devices
- Smartphones or tablets (mobile devices)
- Laptops / Notebooks / UltraBooks (mobile computers)
- Mobile batteries / PowerBanks
- Please ensure that the maximum total output specified on the rating plate is not exceeded.
- Please also ensure that no liquids enter the electrical equipment of the cabinet.
- Only charge devices under supervision. Long-term storage of any devices with Li-ion batteries is not permitted.
