Cable tester, network, RJ45, Single side Tester main device, remote unit, PoE tester, with case

Inteligentni i brzi tester za provjeru stanja telefonskih i mrežnih snopova kabela. Provjerava vezu između RJ45 utikača i snopa kabela. Točno određuje koji je kraj RJ45 utikača spojen na mrežni kabel. Savršeno rješava problem da obični tester ne može utvrditi oba smjera. Na kraju, RJ45 utikač na ovom kraju nije priključen radi uštede vremena.

Standardima usmjereni prema budućnosti i vrhunska kvaliteta za vašu mrežu.
