USB GaN Charger, 30W 1x USB-C, 1x USB-A, White

The powerful 30-watt GaN II charger combines a compact design with the latest charging technology. With a USB-C port that delivers up to 30 watts and a USB-A port with up to 18 watts, it reliably charges not only smartphones but also power-hungry devices such as tablets or lightweight laptops. For maximum flexibility, two devices can be connected at the same time—ideal for charging your smartphone and headphones simultaneously while on the go (up to 15 watts total when used together). Thanks to modern GaN II technology (gallium nitride), the USB charger operates particularly efficiently and safely, while taking up minimal space. Compared to conventional chargers, it offers more power in a more compact design—perfect for mobile use, whether in the office, on business trips, or on vacation. A special advantage: The rugged housing is made of 98% recycled PCR (post-consumer recycling) material and comes in 100% plastic-free packaging. The extra 30W of power makes this charger the ideal companion for anyone who wants to quickly recharge not only their smartphone but also larger devices while on the go. Whether for tablets or headphones—this charger delivers exactly the power you need. Thanks to its slim, durable design, the charger fits easily into any bag and is always within reach. A charger that combines performance and safety in a smart design—for everyone who expects more than the standard.

30 W of power for even faster, reliable charging of up to two devices at once—extra power, compact design, and ideal for home, the office, and travel.

- Maximum power per port: USB-C max. 30W, USB-A max. 18W
- Multi-Device Charging (2 Ports) USB-C + USB-A: 15W max.
- GaN II technology (gallium nitride) for high efficiency, low heat generation, and a compact design
- Plastic housing made from 98% recycled PCR material
- Plastic-Free Packaging
- Protection against overcurrent, short circuits, and overheating
- Input Voltage/Rated Current/Frequency: 100–240 V / 1.0 A / 50/60 Hz
- Average active efficiency: 81.5%
- Power consumption in standby mode: 0.1 W
- Product Color: White
- Dimensions: 3.9 x 8.4 x 2.7 cm
- Weight: 61 g

Attributes

- Style: Charger/Power supply

Package contents

- USB charger
- User Manual

Safety notes

- Use charging adapters or power supply units in accordance with the instructions in the operating instructions to ensure optimum performance.
- Connect the charging adapter to an easily accessible socket in the voltage range between 100-240 V AC.
- Disconnect the charging adapter from the socket after use.
- Do not use the charging adapter with electronic devices that are outside the specifications of the charging adapter.
- Do not expose the device to rain, moisture, vapors or liquids.
- Do not insert any objects into the device.
- Do not attempt to repair the unit or open the housing without authorization. You risk an electric shock!
- Ensure adequate ventilation to prevent damage due to overheating.
- Dust, moisture, vapors and strong cleaning agents or solvents can cause damage to the device.
- Disconnect the appliance from the power supply and the connected devices before cleaning.
- Clean the device with a dust-free cloth.
