

DIGITUS® Copper DIN rail distributor, 6 port, black

DN-96992

EAN 4016032509080

Copper DIN rail patch module 6 x Copper keystone

The DIN rail distributor offers a robust and reliable solution for the structured termination and distribution of copper connections. The modular copper components enable simple and space-saving integration of network connections in control cabinet and distributor housings. By using DIGITUS Keystone modules Cat5e, Cat6, Cat6A and Cat8, shielded with 360° shielding, flexible and powerful copper cabling can be realized. Mounting on a standardized DIN rail ensures quick installation as well as flexible and scalable integration into existing systems. The robust shielding ensures reliable data transmission and reduces electromagnetic interference (EMC). Thanks to the modular design, different network requirements can be implemented individually and ports can be easily expanded or adapted as required.

The module enables simple and space-saving integration of copper connections in switch cabinets and distributor housings. Mounting on a standard DIN rail ensures quick installation and flexible integration into systems.

- Adapter compatibility: CAT 5e, CAT 6, CAT 6A, CAT 8 (shielded)
- Connection hardware: Keystone modules, couplings
- Number of ports: 6
- Material: Aluminum 1.5 mm
- Fastening: DIN rail clip
- Color: Black
- Dimensions (H x W x D): 136 x 112 x 87 mm

Package contents

- 1 x DIN rail distributor, 6 port, black
- 4 x M25 cable gland

Logistics						
	Number (pcs)	Weight (kg)	Depth (cm)	Width (cm)	Height (cm)	cm ³

Safety notes

- Protect product from moisture
- Avoid antistatic charging when installing the product
- Observe the specifications of the raw cable manufacturer during installation

EU responsible person

EU based economic operator ensuring the product complies with the required regulations.
