Front plate 50x50 central plate, RAL9003 with 1x DN-93615-S Keystone Modul

The DIGITUS® network connection module with CAT 6A compact keystone combipack offers a comprehensive and reliable solution for high-performance structured cabling installations. The front panel is designed for seamless integration with shielded DIGITUS® Keystone modules and features integrated dust protection flaps that protect the connector from dust and external contamination, while the vertical orientation of the module at a 45° angle allows convenient cable routing and easy access to the patch cables. The included shielded CAT 6A Compact Keystone module (DN-93615-S) supports high-speed data transmission and future-proof network standards and offers tool-free installation and 360° shielding. Its compact design allows flexible use in compatible modular connectors and high-density installations. By combining both components in one package, the solution ensures guaranteed compatibility while simplifying procurement and installation.

Provides a ready-to-install network connection solution that reduces installation effort while ensuring precise component compatibility and a reliable connection.

- Keystone mount version: 45° outlet
- Areas of application: Cavity wall box, sill channel, surface-mounted housing
