DIGITUS® Dual design monitor mount, 2x 35", 2x 10 kg

DA-90479

EAN 4016032509790

Dual Design Monitor Mount, 2x 35", 2x 10 kg Mechanical Spring, VESA: 75x75, 100x100, Grey

The fully mobile dual-monitor desk mount is the perfect choice for anyone who wants to create an ergonomic, flexible and tidy workspace. Specially developed for the simultaneous use of two monitors, the mount is suitable for flat and curved screens with a diagonal of up to 35 inches. Each of the two sturdy support arms offers a maximum load capacity of 10 kg, so that even larger and heavier monitors can be held securely and reliably. A special highlight is the integrated mechanical spring with tool-free tension adjustment. This enables precise adjustment to the individual monitor weight and guarantees that the screens can be moved smoothly and effortlessly into the desired position. The built-in spring tensioning mechanism ensures smooth movements and stable fixation in any orientation - regardless of whether you want to rotate, tilt or adjust the height of your monitor. The well thought-out, space-saving design integrates effective cable management, which keeps annoying cables out of sight and ensures a tidy workplace. Thanks to the VESA quick-release function (75×75 mm and 100×100 mm), monitors can be attached or removed in no time at all, without the need for tools. The innovative quick-release coupling between the two arms also makes installation particularly quick and easy - ideal for anyone who values uncomplicated installation. For maximum flexibility, the mount offers two different fastening options: the robust clamp fastening for a quick hold on the edge of the table and the stable table feed-through for a permanently secure fastening. High-quality materials and precise workmanship guarantee a long service life and reliable stability - even with intensive daily use. Whether in the office, home office or for creative working environments - this dual monitor mount combines stability, functionality and modern design into a well thought-out complete solution for more comfort and productivity at the workplace.

Fully mobile table mount for 2 screens up to 35" with a maximum weight capacity of 2x 10 kg - suitable for flat screens as well as curved displays

- Maximum monitor size: 35"
- Maximum load per arm: 10 kg
- Mechanical spring with tension adjustment (tool-free)
- VESA compatibility: 75x75, 100x100
- Suitable for flat and curved monitors
- Tested & certified ergonomic product - Certified by IGR (Institute for Health and Ergonomics)
- Tilting the monitor: 135° (+ 90° to -45°)
- Pivoting the monitor: 180° (+90° to -90°)
- Rotating the monitor: 360° (+180° to -180°)
- Full arm extension: 58.2 cm

Safety notes

- Por favor, leia todo o manual antes de iniciar a montagem e a instalação. Em caso de dúvidas sobre as instruções ou avisos, contacte o revendedor local.
- ATENÇÃO: A utilização com produtos que excedam o peso permitido pode causar danos ou, eventualmente, ferimentos.

- Os suportes devem ser instalados de acordo com as instruções de montagem. Uma montagem incorreta pode provocar danos ou ferimentos.
- Utilizar equipamento de segurança e ferramentas adequadas. A montagem do produto só deve ser realizada por profissionais.
- Este produto pode ser instalado em paredes com estrutura de vigas, em betão maciço ou em pedra.
- As superfícies de apoio devem ser capazes de suportar com segurança todo o peso dos equipamentos e de todos os componentes adicionais.
- Utilize apenas os parafusos de montagem fornecidos e NÃO APERTE OS PARAFUSOS COM DEMASIADA FORÇA.
- Este produto contém peças pequenas que podem representar um risco de asfixia em caso de ingestão. Mantenha estas peças fora do alcance das crianças.
- Este produto deve ser utilizado apenas em espaços interiores. A utilização do produto em espaços exteriores pode causar ferimentos e danos.
- IMPORTANTE: Antes da montagem, verifique se todas as peças recebidas correspondem à lista de peças. Caso haja peças danificadas ou em falta, solicite peças de substituição ao revendedor local.
- MANUTENÇÃO: Verifique regularmente se o suporte está seguro e estável (de preferência a cada três meses)
