DIGITUS® Single Port 10G SFP PCIe Network Card

DN-10161

EAN 4016032445180

SFP+ 10G PCI Express Card Low profile bracket, Intel JL82599EN chipset

With this 10-Gigabit Fiber Optic network card you have a cost efficent solution for connecting your workstation to your network using the SPF+ Tranceiver of your choice. Due to the Intel chipset you have a reliable solution offering you features like up to 15.5K jumbo frames, IP, TCP and UDP checksum offloading (IPv4, IPv6) capabilities.

Connect your workstation directly to your 10G fiber optic network

- Compatible with x8 and x16 PCIe slots
- Supports 802.1Q VLAN tagging
- Up to 15.5K Jumbo Frames
- Supports 10G SFP+ optical and direct attached copper modules
- PCI Express specification revision 2.0
- IEEE 802.1Q Tagged VLAN
- Supports Win 7, 8.1, 10, Server 2008 R2, 2012, 2012 R2, Linux 2.6.x and later
- Chipset: Intel JL82599EN

Package contents

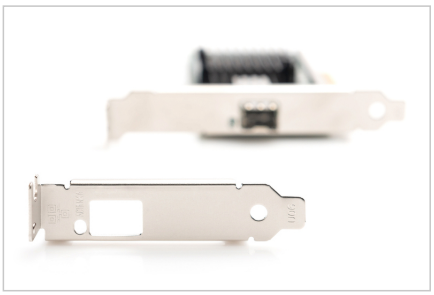

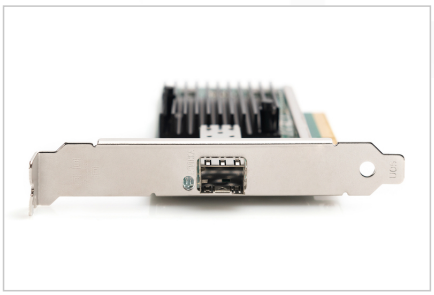

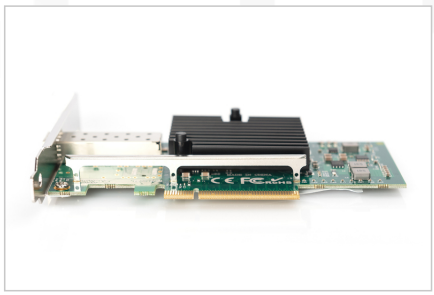

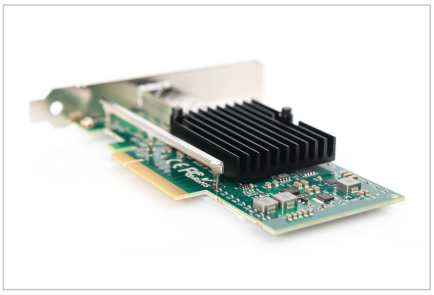

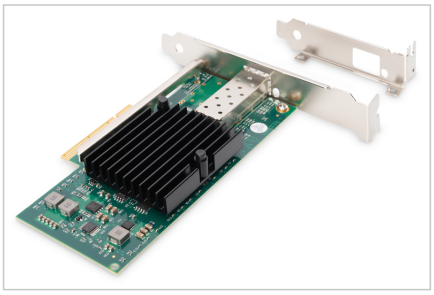

- Network Card
- Low profile bracket
- User manual
- Driver CD

Safety notes

- Switch off the computer completely and disconnect it from the power supply before installing or removing the network card.
- Static discharge can damage the product or the PC. Take measures against static discharge (ESD) when installing the product, e.g. wear an antistatic wrist strap.
- Before installation, touch the metal surface of the PC housing or another grounded object to ground any ESD charge via the housing.
- Avoid using too much force when connecting the product to the PC.
- Please ensure that any cables are connected correctly without overstretching or damaging them.
- Avoid touching the contacts of the product with your fingers to prevent corrosion or static charge.

EU responsible person

EU based economic operator ensuring the product complies with the required regulations.
