

DIGITUS 8 Port Gigabit Switch, 10 inch, Unmanaged, 2 Uplinks

DN-80119
EAN 4016032479482

DIGITUS 10" Switch 8 Port GE + 2SFP 8 x 10/100/1000 + 2 SFP

The 8-Port Gigabit Switch from DIGITUS® provides 8 x Gigabit RJ45 ports, additionally it offers 2 SFP uplink ports with 1 Gigabit bandwidth. Easily expand the existing network, providing a backplane bandwidth of 20 Gbps. The switch can be installed in 10-inch server racks and enclosures. The power supply is already integrated into the rugged, fanless chassis. Ideal for expanding / building small home or business networks.

Gigabit switch for use in 10-inch chassis with 2 SFP uplinks - Simple and economical solution for expanding your network

- Number of ports: 8 x 10/100/1000Mbps
- Uplink ports: 2 x SFP 1000Mbps
- Auto-negotiation: Auto MDI/MDIX
- IEEE802.3x full-duplex flow control
- Backplane bandwidth: 20 Gbps
- Forwarding capacity: 1.488 Mpps
- MAC addresses: 8K
- Fanless design
- Operating voltage: 100 - 240 V AC, 50/60 Hz, integrated power supply, (IEC C13 IEC plug)

- Power consumption: 15 W max.
- Power cord: Type-F grounding plug (CEE 7/4) to IEC C13 cold-device socket
- Operating temperature: 0°C to 40°C
- Operating humidity: 20% - 85% (non-condensing)
- Storage temperature: -10°C to 70°C
- Dimensions: 252 x 150 x 44 mm
- Weight: 1.1 kg

Attributes

- Industrial usage: no
- Managed: no
- Outdoorsuitable: no
- PoE (Power over Ethernet): no
- Protection against vandalism: no
- VLAN: no

Package contents

- 1 x 8 Port Gigabit Switch, 10-Zoll, Unmanaged, 2 Uplinks
- 1 x QIG

Safety notes

- This product is intended for indoor use only.
- Read all instructions and follow all warnings and instructions on the device.
- Do not place this appliance on an unstable surface (such as a trolley, stand, table, etc.).
- Do not use this appliance near water.
- Do not place this appliance near or above a radiator.
- The housing is equipped with openings for heat dissipation and ventilation. To prevent overheating during operation, the ventilation openings must not be blocked or covered.
- Do not place the appliance on a soft surface (e.g. bed, sofa, blanket, etc.). This will block the ventilation.
- The appliance must not be installed in a closed environment if adequate ventilation is not guaranteed.
- Do not spray any liquids onto the appliance.
- Disconnect the mains plug before cleaning. Do not use any liquid or foam cleaners.
- Clean the appliance with a damp cloth.
- Connect the device according to the power supply on the rating plate.
- To prevent damage to the appliance, it is important that all appliances are properly earthed.
- Do not place any objects on the power cable and lay it in such a way as to avoid tripping hazards.
- Use a surge protector, a regulator or an uninterruptible power supply (UPS) to protect your system from sudden, temporary and reduced power.
- Secure the system cable and mains cable properly and ensure that no objects are pressing on the cable.
- Do not insert any objects into the appliance through the openings in the housing. There is a risk of a short circuit, which can lead to fire or electric shock.
- Do not attempt to repair the appliance yourself. Always contact an authorized customer service centre.
- If any of the following conditions occur, unplug the appliance and send it to an authorized service centre for repair:
 - The mains cable, power supply unit or plug for the power supply is damaged or worn;
 - Liquid has penetrated the appliance;
 - The device has been exposed to rain or water;
 - The device has been dropped or the housing has been damaged;
 - The function of the device has obviously changed;
 - The appliance cannot be operated as described in the operating instructions.
