Industrial 4+2 port Gigabit Ethernet switch

DN-651148 EAN 4016032489245

Industrial 4+2-Port Gigabit Ethernet Switch 4-Port GE RJ 54, 2 GE SFP Port

The DN-651148 is a robust 4+2 port Industrial Gigabit Ethernet switch for harsh environments. With non-blocking wire-speed performance, it offers \square 4x 10/100/1000 BASE-TX RJ45 + 2x 1000Base-Fx ports. The IP40 enclosure with redundant power supply is ideal for monitoring, control management and wireless services at -40 \square to 80 \square .

4x 10/100/1000 BASE-TX RJ45 + 2x 1000Base-Fx ports. The IP40 enclosure with redundant power supply is ideal for monitoring, control management and wireless services at -40 \square to 80 \square .

- Supports IEEE802.3x flow control, and backpressure
- Supports store-and-forward technology for optimized data transfer
- Automatic speed and half/full duplex detection/adjustment
- Bandwidth: 14 Gbps
- Packet buffer: 1.2 Mbit
- Packet forwarding size: 10.5 Mbps
- Size of the MAC address table: 2K
- Jumbo frame rate: 9000 byte
- ESD protection: 6 kV (DC)
- EFT protection: 6 kV (DC)
- Metal housing, IP40
- 4 kV lightning protection and surge protection
- Redundant power supply with reverse polarity protection function

- Power supply: 12 to 48 V
- Power consumption: <5 W
- Removable terminal connection
- Protection class: IP40
- Dimensions: 142.5 x 107.1 x 53.5 mm
- Operating temperature: -40 to 80 ° C
- Storage temperature: -40 to 80 $^{\circ}$ C
- Humidity: 5% to 95% (non-condensing)
 MTBF: 300,000

Attributes

- Number of ports: 4
- Ethernet speed: Gigabit
- Industrial usage: yes
- Managed: no
- Number of ports (Uplink): 2
- · Outdoorsuitable: no
- PoE (Power over Ethernet): no
- Protection against vanadlism: no
- Uplink port connection: SFPVLAN: no

Package contents

- 1x Industrial Gigabit Ethernet Switch
- 1x user manual

Safety notes

- This product is intended for indoor use only.
- Read all instructions and follow all warnings and instructions on the device.
- Do not place this appliance on an unstable surface (such as a trolley, stand, table, etc.).
- · Do not use this appliance near water.
- · Do not place this appliance near or above a radiator.
- The housing is equipped with openings for heat dissipation and ventilation. To prevent overheating during operation, the ventilation openings
 must not be blocked or covered.
- Do not place the appliance on a soft surface (e.g. bed, sofa, blanket, etc.). This will block the ventilation.
- The appliance must not be installed in a closed environment if adequate ventilation is not guaranteed.
- Do not spray any liquids onto the appliance.
- Disconnect the mains plug before cleaning. Do not use any liquid or foam cleaners.
- Clean the appliance with a damp cloth.
- Connect the device according to the power supply on the rating plate.
- To prevent damage to the appliance, it is important that all appliances are properly earthed.
- Do not place any objects on the power cable and lay it in such a way as to avoid tripping hazards.
- Use a surge protector, a regulator or an uninterruptible power supply (UPS) to protect your system from sudden, temporary and reduced power.
- Secure the system cable and mains cable properly and ensure that no objects are pressing on the cable.
- Do not insert any objects into the appliance through the openings in the housing. There is a risk of a short circuit, which can lead to fire or electric shock
- Do not attempt to repair the appliance yourself. Always contact an authorized customer service centre.
- If any of the following conditions occur, unplug the appliance and send it to an authorized service centre for repair
- The mains cable, power supply unit or plug for the power supply is damaged or worn;
- Liquid has penetrated the appliance;
- The device has been exposed to rain or water;
- The device has been dropped or the housing has been damaged;
- The function of the device has obviously changed;
- The appliance cannot be operated as described in the operating instructions.
