

PURELINK Active USB 3.1 (Gen.1) Extension Cable - black - 15.00m

DS3100-150
EAN 4251364716205

The active SuperSpeed USB 3.1 (Gen. 1) USB-A Extension Cable is an indispensable accessory for PC and Mac users to bring USB peripherals such as hard drives, printers, mice, keyboards, and USB hubs within reach from behind the desk or across the room. The active cable is bus powered with an integrated amplification chipset to ensure the SuperSpeed USB 3.1 (Gen. 1) performance over longer distances than a passive USB cable. The combination of nickel-plated connectors, bare copper conductors as well as dense shielding made of foil & braid provides superior cable performance and error-free data transmission. Connections Contact material nickel-plated Shielding Yes Connector 1 USB-A male Connector 2 USB-A female Contacts nickel-plated Electrical Signal Standards USB 3.1 (Gen1) / USB 3.0 Cable Round Cable Length 5.0m Inner conductor material Copper AWG 28AWG Outer material PVC Outer diameter ca. 5.5mm Mechanical Power consumption 5V/1.5A (optional) Operating temperature 0°C - 50°C Storage temperature -40°C - 55°C Signal transmission Supported standards SuperSpeed USB

- Active SuperSpeed USB 3.1 (Gen. 1) / USB 3.0 extension cable with USB-A male to USB-A female connectors, fully backwards compatible to all older USB specifications - Colour: black, Length: 15.0m
- The active USB extension cable is bus powered with an integrated amplification chipset to ensure SuperSpeed USB 3.1 (Gen. 1) performance over longer distances than a passive USB extension cable
- Enjoy SuperSpeed USB 3.1 (Gen. 1) data transfer rate at up to 5 Gbit/s or 300 MB/s
- Premium USB 3.1 (Gen. 1) repeater cable, engineered with molded strain relief connectors for durability and grip treads for easy plugging and unplugging
- The combination of nickel-plated connectors, bare copper conductors as well as a denseshielding made of foil & braid provides superior cable performance and error-free data transmission
