

PURELINK IS1400 - Mini DisplayPort / VGA Cable

IS1400-015
EAN 4260134125765

The IS1400 combines technology of today with displays from yesterday! The Mini DisplayPort and Thunderbolt to VGA cable IS1400 (male - male) of the iSeries is ideal for direct connection to source units with Mini DisplayPort or Thunderbolt port for older displays, projectors or CRT monitors with analog VGA input. With its line of high-purity OFC copper, triple shielding and the precision plug contacts it makes for a perfect transmission quality, even if the output device is already a bit older. Please note that this is not a bi-directional cable, so it can not connect from VGA to Mini DisplayPort.

- Mini DisplayPort and Thunderbolt to VGA connection, for Apple devices
- For MacBook, iMac, Mac mini™ and other devices with Mini DisplayPort
- Precision plug contacts for a perfect fit
- High purity OFC copper conductor and 3-way shielding
- Especially suitable for professional applications and installations
- AOC - Active Optical Cable: no
