

MIKROTIK MikroTik RouterBoard mAP lite

M-RBMAPL-2ND
EAN 9010386000786

The mAP lite is our smallest wireless access point. It is barely larger than a matchbox, we even had to use a special Ethernet port to match its slim profile. You can carry it anywhere: use as a travel router to extend that hotel internet to all your devices, or as a client device to improve your laptop signal range, the tiny mAP lite will be always with you. It comes with a built-in magnet, so you can attach it to any ferrous surface, or, if those are not available, a metallic plate with an adhesive back is also included. It can also serve as a simple configuration tool for your servers, if there is no Ethernet on your mobile device, plus, it neatly attaches to the rack with its magnet. The mAP lite is a dual chain 802.11 b/g/n device and operates in 2GHz.

- CPU: QCA9533

- CPU nominal frequency: 650 MHz
- CPU core count: 1
- Size of RAM: 64 MB
- 10/100 Ethernet ports: 1
- Wireless: 2.4 GHz 802.11b/g/n, dual-chain
- PoE in: Passive and 802.3af/at
- Supported input voltage: 5 - 60 V
- Dimensions: 113x89x28mm
- License level: 4
- Operating System: RouterOS
- Max Power consumption: 3.5 W
