CAT 6 S-FTP outdoor patch cord, Cu, PE AWG 27/7, length 5 m, black sheath color

The DIGITUS® Category 6 Class E patch cables are manufactured and tested according to the ISO/IEC 11801 and DIN EN 50173 CAT 6 standard. They guarantee that the cable installation complies with the ISO & EN Channel specification and offer excellent performance in DIGITUS® CAT 6 cabling. The performance has been tested up to 250 MHz, including performance characteristics such as near-end crosstalk ("NEXT"). The DIGITUS® patch cables have been specially developed to fully meet all requirements in the various application areas. Each cable is equipped with a molded anti-kink grommet with strain relief. The grommet also has a latching lever protection, which prevents the cable from snagging and the latching lever from breaking off the plug. With the UV-resistant PE outer sheath, this outdoor patch cable enables safe installation in areas with strong temperature fluctuations and which are exposed to the sun.

Outstanding performance and connection quality for your network with UV resistance.
