### HDMI 2x2 Video Wall Processor Support 4K@60Hz (4:4:4)

With the DIGITUS® Video Wall Controller 2x2, you can transform a total of 4 TV sets or monitors with HDMI into a large-format video wall. The controller enables you to distribute a high-resolution 4K signal across 4 Full HD displays to create a large image. You can be as creative as you like: set up a classic 2x2 monitor wall or arrange 2 to 4 monitors horizontally or vertically, combining them to make a video wall. By pressing a button on the device or the remote control included in delivery, you can switch between the different modes. The device also contains a splitter function that allows you to display the same image on all the monitors. With this professional tool, you are ideally equipped to display visualizations of all kinds for trade fairs, advertising or shop windows with a high degree of flexibility.
