

DIGITUS Charging Trolley for Notebooks / Tablets up to 15.6 inch

DN-45002

EAN 4016032477617

Charging trolley, 15.6", USB-A 30 charge bases, PDU, fan, 1260 x 824 x 650 mm

The mobile charging cabinet from DIGITUS® is the ideal and compact solution for storing and charging your portable devices such as notebooks and tablets. Mobile charging cabinets are frequently used in public facilities such as schools in order to store devices securely at a central location while charging them at the same time. The cabinet includes 3 rows with 10 charging stations each, all of which have their own USB connection on the front. The devices can also be connected with installed socket strips (3 x 10 safety sockets) at the back. Thanks to ample cable feedthroughs and excess cable storage, optimal cable management is guaranteed. Installed ventilators (3 x 24 V) combined with ventilation slits ensure active cooling of the cabinet.

The ideal solution for storing and charging your portable devices.

- Double Folding Front and Back Door
- Pressure lock system with swiveling lever handle on the front and back door, lockable
- 180° door opening angle
- 2-point locking (rod lock)

A close-up photograph of the front panel of a Pioneer hi-fi system. The top section features a CD player with a silver disc tray and a row of five circular buttons with red centers. Below this is a dark, recessed area, likely for a turntable. The right side of the panel has a small, circular speaker grille. The entire unit is housed in a dark, textured chassis.
