DIGITUS®

DIGITUS 4- Port Gigabit PoE Netzwerkswitch, Desktop, unmanaged, 1 Uplink Port RJ45, 60 W, af/at

DN-95330-1
EAN 4016032484974

4+1 Port Ethernet Unmanaged PoE Switch 4 Port PoE, MDI/MDIX, IEEE802af,at

The DIGITUS 5-Port Gigabit Desktop Switch with four Power over Ethernet ports and one additional uplink Port, offers your network significant improvement in terms of performance and efficiency. Thanks to PoE support, you only need a single (network) cable for power and data transfer. This switch makes it much easier to connect devices such as access points, network cameras, and IP telephones, and requires far less cabling than alternatives. It also allows you to extend your network in places where there are no power supply cables or sockets available. The switch does not require any configuration and therefore guarantees quick and seamless integration into the network. Moreover, the switch's fanless design ensures soundless operation, which makes this device the perfect solution for office environments and meeting rooms.

Gigabit Ethernet PoE Switch 4-port PoE + 1-port uplink, 60W PoE budget

- Comply with IEEE 802.3, IEEE 802.3u, IEEE802.3x standards
- Support IEEE802.3af, IEEE802.3at standards
- Supports PoE: One to four ports (802.af, 15.4 Watts) or for two ports (802.3.at, 30 Watts)
- Automatically detect PD devices

- PoE power budget: 60 Watts
- Auto detect power device; will not burned non-standard PoE device or normal PoE switch
- Supports port power supply prioritization, guarantee the continuous power supply of key nodes
- Line-speed forwarding, intelligent identification
- Supports storage – and- forward for Data exchange
- Support One-Key CCTV function
- Ethernet speed: Gigabit
- MAC Address Table: 2K, Auto-learning, Auto-aging
- Switching Capacity: 10Gbps
- Fanless
- Power Supply: 65W
- PoE Power on RJ45: Mode A 1/2(+),3/6(-)
- Jumbo frame: 9K Bytes
- Dimensions (L*W*H): 140*76.7*28mm

Attributes

- Industrial usage: no

Package contents

- 4+1 Port PoE Switch
- QIG
