Planet Gigabit Ethernet PoE+ Injector, 802.3at, 60 W

POE-171
EAN 4711213689581

Planet Ultra PoE Injector, 60 Watts, 56V, Gigabit, external Power Supply Power pins: 4/5(+),7/8(-) and 3/6(+), 1/2(-), 60W

802.3bt ready! Ultra Power over Ethernet Injector, compatible with 802.3af and 802.3at, 10/100/1000 Mbps, enables the transmission of up to 60 watt DC power (50 watts net at the PD) and Ethernet through a normal patch cable up to 100 meters, 56V, needs 4 pairs (i.e. at least Cat. 5 cable), integrated power supply. Since Ultra POU is not yet standardized, the separately sold POE-171S can be used at the other end of the cable to split data and power, so the full power is available (for devices without POE but with 12V, 19V or 24V DC). Of course POE 802.3at (30 watts) and 802.3af (15 watt) PD can be used without a splitter.

Quick and easy gigabit PoE network deployment

- 1 Port for Data input

- 1 Port for Data output and PoE
- DC 52~56V input power socket
- Ultra Power over Ethernet End-Span/Mid-Span PSE
- IEEE 802.3at/af PoE standard compliant
- Compatible with all IEEE 802.3at/af powered devices
- Auto-detection of PoE IEEE 802.3at/af equipment and device for possible damage by incorrect installation
- Remote power feeding up to 100m

Attributes

- Number of ports: 1
- PoE Power budget: 60 W
- PoE standard: IEEE802.3at (PoE+)
- Ethernet speed: Gigabit
- Industrial usage: no
