Planet HDMI over IP Receiver, 1080p, PoE

IHD-210PR
EAN 4711605282512

Planet HDMI over IP Receiver, 1080p, PoE

HDMI Extender via Ethernet / IP, power supply via PoE 802.3af (max. 7W). A 100 Mbps connection is sufficient (video stream requires approx. 15 Mbps). Requires IHD-210PT on the opposite side. Signal distribution to single or multiple displays, 64 channels configurable via DIP switches. If several receivers are used, the network load can be reduced to a minimum via IGMP multicast (switch must support IGMP snooping and 802.1q VLAN; without these features, the solution only works without multicast, i.e. with normal network load of 15 Mbps per display), supports EDID (Extended Display Identification Data), resolution max. Full HD 1080p, 2-channel audio, 1 x HDMI type A output, HDCP compliant, 1 x RJ45. Without power supply. Dimensions 130 x 82 x 30.25 mm, weight 290 grams.

- KVM: no
- PoE (Power over Ethernet): no
