The 483 mm (19") network cabinets for wall installation from the SOHO series are delivered unassembled using a flat pack to optimize costs. Available in four rack units and equipped with a full glass door as well as a cable entry with brushes in the roof and floor, this is the perfect product for subdividing or building up a small to medium-sized network. Two pairs of galvanized 483 mm (19") profile rails labeled with easy-to-read rack units are installed on the inside. Their depth can be adjusted. Each cabinet is made of up to 1.5 mm thick sheet steel. Coloring is done with electrostatic powder coating in the standard colors gray (RAL 7035) or jet black (RAL 9005). The door hinges can be switched. Installation takes just a few steps and is extremely easy thanks to the step-by-step instructions included.
