

MicroScanner² Cable Verifier Professional Kit

ACT-MS2-KIT
EAN 4016032358893

MicroScanner² Cable Verifier Professional Kit includes MicroScanner², Main Wiremap Adapter

The MicroScanner² Cable Verifier presents a revolutionary change in voice, data, and video cable testing. It starts by taking results from what was four different test modes and displaying them all at once – graphical wiremap, pair lengths, distance to fault, cable ID, and far end device. What's more, its integrated RJ11, RJ45, and coax test ports support virtually any type of low-voltage cable testing with no need for awkward adapters. The end result is reduced test time and technician error. That makes high-quality installations more efficient than ever. Today's communications technicians have a lot more problems to deal with than just the cabling. They have to rule out a whole host of potential cable and service issues before determining the cause of a connection problem. Is there telephone voltage? What's the polarity? Is there an Ethernet switch at the far end? Is PoE available? MicroScanner² acknowledges this, giving technicians high power vision to verify today's most common voice, data, and video services. That means faster, more comprehensive troubleshooting.

Next-generation MicroScanner verifies voice/data/video cable and services with an oversized display with revolutionary user interface.

- Area of application: Verifies voice/data/video cable
- General properties:
- Display: Monochrome liquid crystal display
- Housing: Plastic with show absorbing overmold
- Dimensions: 7.6 x 16.3 x 3.6 cm
- Weight: 363 g
- Battery: 2x AA-alkaline
- Life of battery: Up to 20 hours of typical use
- Package content: MicroScanner² Cable Verifier with main wiremap adapter

- IntelliTone Pro 200 kit
- Accessory soft pouch
- Fluke Networks carry case
- Remote identifiers #2-7
- Shielded twisted pair RJ45 patch cord
- RJ11 patch cord
- Clip-set RJ45 to 8 alligator clip bare wire adapter
- F Coax push on patch cord
- Technical properties:
- Test Connectors: Twisted-pair: UTP, FTP, SFTP 8-pin modular jack accepts RJ45 and RJ11 Coax: F-connector for 75 Ω , 50 Ω , 93 Ω cables
- IntelliTone Toning: Locates virtually any cable or wire pair with IntelliTone digital and analog toning
- VDV service detection: User-configurable NVP for twisted pair and coax
- Calibration: Determines actual NVP with known length of cable
- Operating temperature: 0 °C to 45 °C

Package contents

- 1x MicroScanner² Cable Verifier with main wiremap adapter
- Remote identifiers #2-7
- 1x IntelliTone Pro 200 probe
- 1x shielded twisted-pair RJ45 patch cord
- 1x RJ11 patch cord
- 1x clip-set RJ45 to 8 alligator clip bare wire adapter
- 1x F Coax push on patch cord
- 1x accessory soft pouch
- 2x AA alkaline batteries, 1x 9V alkaline battery
- 1x MicroScanner² Getting Started Guide, 1x MicroScanner² Owners CD
- 1x IntelliTone Pro Getting Started Guide, 1x IntelliTone Pro owners CD
- packaged in a deluxe Fluke Networks carry case
