

Gigabit Ethernet PoE Splitter, 802.3af, 12 W

DN-95204
EAN 4016032423935

Gigabit PoE af Splitter, 10/100/1000 Mbps, 12W Input: 802.3af PoE, Output: 5V/2A, 9V/1.5A, 12V/1A,

The DIGITUS PoE Splitter provide data and power via a single Ethernet Cable to devices, which are not supporting Power over Ethernet. Just connect the input of the Splitter to a PoE Switch or a PoE Injector and the output side to a non-PoE network device such as an access point, IP Phone or a Camera to provide Power and Data. The Extender is self powered by PoE, so there is no additional power supply needed. The output voltage can be regulated via a dip switch to 5V, 9V or 12V. So this Splitter expand your network where you wish to place network device where are no power outlets available.

Integrates Power over Ethernet technology to older non PoE network devices

- Ethernet Speed: 10/100/1000Mbps Gigabit Half/Full Duplex
- PoE Standard: IEEE802.3af / IEEE802.3at
- Input: Power + Data In (RJ45)
- Output: Data Out (RJ45), DC Out
- Plug-and-Play Installation - No configuration necessary
- Adjustable output: 5V/2A, 9V/1A, 12V/1A
- Splits the 48VDC power over RJ45 Ethernet cable into different DC output
- Status LED on the device (PoE ready/ PoE in-use)

- Circuit isolation protection
- Maximum power output up to 12 watts
- Support wide input voltage range 34VDC to 57VDC
- Thermal cut off
- Operating Temperature: 0 to 40°C
- Dimensions (L x W x H): 80 x 55 x 23 mm
- Weight: 80g
- Colour: black
- Power consumption: 3W
- DC plug Size: 5.5x2.1mm

Attributes

- PoE norma: IEEE802.3af (PoE)
- Ethernet brzina: Gigabit
- Izlazna snaga: 12 W
- Industrijska uporaba: Ne

Package contents

- Gigabit PoE Splitter
- Manual
- RJ45 Ethernet cable
- DC power cable
- {DE mau}: 3,5mm Stromadapter

Safety notes

- This product is intended for indoor use only.
- Read all instructions and follow all warnings and instructions on the device.
- Do not place this appliance on an unstable surface (such as a trolley, stand, table, etc.).
- Do not use this appliance near water.
- Do not place this appliance near or above a radiator.
- The housing is equipped with openings for heat dissipation and ventilation. To prevent overheating during operation, the ventilation openings must not be blocked or covered.
- Do not place the appliance on a soft surface (e.g. bed, sofa, blanket, etc.). This will block the ventilation.
- The appliance must not be installed in a closed environment if adequate ventilation is not guaranteed.
- Do not spray any liquids onto the appliance.
- Disconnect the mains plug before cleaning. Do not use any liquid or foam cleaners.
- Clean the appliance with a damp cloth.
- Connect the device according to the power supply on the rating plate.
- To prevent damage to the appliance, it is important that all appliances are properly earthed.
- Do not place any objects on the power cable and lay it in such a way as to avoid tripping hazards.
- Use a surge protector, a regulator or an uninterruptible power supply (UPS) to protect your system from sudden, temporary and reduced power.
- Secure the system cable and mains cable properly and ensure that no objects are pressing on the cable.
- Do not insert any objects into the appliance through the openings in the housing. There is a risk of a short circuit, which can lead to fire or electric shock.
- Do not attempt to repair the appliance yourself. Always contact an authorized customer service centre.
- If any of the following conditions occur, unplug the appliance and send it to an authorized service centre for repair
 - The mains cable, power supply unit or plug for the power supply is damaged or worn;
 - Liquid has penetrated the appliance;
 - The device has been exposed to rain or water;
 - The device has been dropped or the housing has been damaged;
 - The function of the device has obviously changed;
 - The appliance cannot be operated as described in the operating instructions.
