

DIGITUS 19" LCD KVM console, 8-port VGA, German keyboard

DS-72211-2GE
EAN 4016032449355

Modularized 48,3cm (19") TFT console with 8 port KVM, GE keyboard, RAL 9005 black

Thanks to its modular design, the DIGITUS® 19" TFT console offers a wide range of individual configuration options so that it can be adapted to the area of application of the console. This makes the console cost-saving and it can be upgraded or converted with additional modules at any time. The flexible configuration guarantees that the console is highly future-proof. The modular console consists of a 19" monitor, 8-port KVM switch, a keyboard and the touchpad.

Maximum flexibility in the administration of the server farm

Safety notes

- This product is intended for indoor use only.
- Read all instructions.
- Follow all warnings and instructions on the device.
- Do not place this appliance on an unstable surface (such as a trolley, stand, table, etc.).
- If this appliance falls, it can cause serious damage.
- Do not use this appliance near water.
- Do not place this appliance near or above a radiator.
- The housing is equipped with openings for heat dissipation and ventilation. To prevent overheating during operation, the ventilation openings must not be blocked or covered.
- Do not place the appliance on a soft surface (e.g. bed, sofa, blanket, etc.). This will block the ventilation.
- The appliance must not be installed in a closed environment if adequate ventilation is not guaranteed.
- Do not spray any liquids onto the appliance.
- Disconnect the mains plug before cleaning. Do not use any liquid or foam cleaners.
- Clean the appliance with a damp cloth.
- Connect the device according to the power supply on the rating plate.
- This device is designed for the IT distribution system with 100 V - 230 V voltage.
- To prevent damage to the appliance, it is important that all appliances are properly earthed.
- Do not place any objects on the power cable and lay it in such a way as to avoid tripping hazards.
- If an extension cable is used for the appliance, make sure that the total capacity of all products using the cable does not exceed the current load.
- Ensure that the total current of all products connected to the socket does not exceed 15 A.
- Use a surge protector, a regulator or an uninterruptible power supply (UPS) to protect your system from sudden, temporary and reduced power.
- Secure the system cable and mains cable properly and ensure that no objects are pressing on the cable.
- Do not insert any objects into the appliance through the openings in the housing. There is a risk of a short circuit, which can lead to fire or electric shock.
- Do not attempt to repair the appliance yourself. Always contact an authorized customer service centre.
- If any of the following conditions occur, unplug the appliance and send it to an authorized service centre for repair
 - The mains cable or plug is damaged or worn;
 - Liquid has penetrated the appliance;
 - The device has been exposed to rain or water;
 - The device has been dropped or the housing has been damaged;
 - The function of the device has obviously changed;
 - The appliance cannot be operated as described in the operating instructions.
