

Mobile Workstation

DN-39007
EAN 4016032460862

Mobile workstation with 3 compartments, IP20 1800x600x600 mm, RAL 7035 body, RAL 7031 door

The mobile workstation from DIGITUS® was primarily designed for flexible usage in, for example, office environments, warehouses, hospitals, laboratories, hotels or conference rooms. Each cabinet is divided into three parts. The lockable monitor unit is used for storage of a monitor or similar device. A lockable keyboard box guarantees secure storage of your input devices when these are not in use. Cable holes on both sides mean that connected devices can be used even when the box is locked. The basis of the mobile workstation can be locked from both sides and is equipped with a fixed shelf. They can be used, for example, to store a printer or similar device. In addition to this, every mobile workstation is also equipped with a folding table for efficient everyday usage. Each cabinet is made of up to 1.5 mm thick sheet steel, and special sheet metal bending technology ensures that the robust steel construction is very robust. Coloring is done with powder coating in the color gray (RAL 7035) and blue gray (RAL 7031).

Mobile workstation for flexible use, with three separate areas for components.
