

On Ear Bluetooth Headset with Docking Station

DA-12211
EAN 4016032474883

Bluetooth Office Headset, On Ear, volume control, incl. docking station

The on-ear headset from DIGITUS® offers optimal voice quality and faster connection thanks to Bluetooth 5.0. The headset can be connected with two devices simultaneously; for example, it can easily and quickly switch between two smartphones. The range is up to 10 m depending on the environment. The Bluetooth headset is compatible with iOS and Android smartphones and can be used for call times of up to 17 hours thanks to the rechargeable lithium ion battery. The headband can be adjusted flexibly to different head sizes and shapes, and the headset can be worn on the right or left side thanks to the rotatable microphone. The soft pad at the ear ensures excellent wearing comfort.

Safety notes

- Make sure that the cable is not subjected to too much strain or damaged, as this can lead to short circuits or other technical problems. Avoid pulling or twisting the cable.
- Do not expose the device to rain, moisture, vapors or liquids.
- Avoid using the device near sources of strong electromagnetic interference (such as cell phones or large appliances).
- Do not attempt to repair the unit or open the housing without authorization.
- Dust, moisture, vapors and strong cleaning agents or solvents can cause damage to the device.
- Clean the device with a dust-free cloth.
- For headsets:
 - To avoid hearing damage, ensure that the volume is kept at a safe level. Very high volume levels can lead to permanent hearing loss.
 - Do not wear the headset for too long at a time to avoid skin irritation or heat build-up.
 - Protect your headset from moisture and rain. Many headsets are not waterproof and could be damaged by moisture.
- If you experience pain, pressure or dizziness after wearing the headset for a long time, please stop using it immediately and consult a doctor if necessary.
- Make sure that the headset is compatible with the device you are using and is connected correctly to avoid technical faults or damage.
- For microphones:
 - Make sure that the microphone is correctly aligned and not positioned too close to your mouth or other sound sources to avoid unnecessary noise or clipping.
 - Make sure that the volume of the microphone in an environment with loudspeakers is set so that there is no feedback. This can lead to unpleasant noises and damage the microphone or speakers.
