

DIGITUS USB Charger 2x USB-A, 15.5W

DA-10061

EAN 4016032482673

USB Charger 2x USB-A 15W, 2x 2,4A, white

The Universal Charging Adapter from DIGITUS® is suitable for USB devices such as smartphones or tablets and provides an output of up to 15.5 W. 2 USB devices can be charged at the same time. The integrated short circuit, surge and excess current protection provides added security. Furthermore, the integrated excess heat protection prevents potential overloads and damages to the charger or connected devices. Its compact dimensions make the charging adapter ideal for on the go.

2-port USB charger with an output of up to 15.5W for USB devices of all kinds with numerous safety features

- Connection: 2x USB A
- Compatible with smartphones with 12W charging adapter, e.g. from Apple, Huawei, XIAOMI, Google, Samsung
- Input voltage: 100 - 240 V AC, 50/60 Hz

- Output voltage: 5V/3.1A
- Surge protection / excess current protection / overload protection / short circuit protection
- Protection against overheating with automatic switch-off and recovery (auto-recovery)
- Housing: Fire-resistant material
- Dimensions: L 79.2 x 42.6 x 27,3 mm
- Color: White
- Weight: 45 g

Attributes

- Style: Charger/Power supply

Package contents

- 1x USB Charger 2x USB-A
- QIG (Quick Installation Guide)

Safety notes

- Use charging adapters or power supply units in accordance with the instructions in the operating instructions to ensure optimum performance.
- Connect the charging adapter to an easily accessible socket in the voltage range between 100-240 V AC.
- Disconnect the charging adapter from the socket after use.
- Do not use the charging adapter with electronic devices that are outside the specifications of the charging adapter.
- Do not expose the device to rain, moisture, vapors or liquids.
- Do not insert any objects into the device.
- Do not attempt to repair the unit or open the housing without authorization. You risk an electric shock!
- Ensure adequate ventilation to prevent damage due to overheating.
- Dust, moisture, vapors and strong cleaning agents or solvents can cause damage to the device.
- Disconnect the appliance from the power supply and the connected devices before cleaning.
- Clean the device with a dust-free cloth.
