DIGITUS USB Type-C™ Multiport Travel Dock, 6 Port

DA-70867
EAN 4016032450481

USB-C Multiport Travel Dock, 6 Port 4K, HDMI, 1x USB-C, 2x USB3.0,2x card reader

With DIGITUS® USB Type-C™ Multiport Travel Dock, you always have the most important interfaces with you. The dock adds six ports to your laptop. It offers a video interface (HDMI). The highest possible supported resolution: Brilliant UHD (4K/30Hz). It also offers two USB 3.0 ports, one of which provides an extra charging function for mobile devices (BC 1.2). The dock also offers a USB-C™ port (Power Delivery 3.0 + data transfer). The whole thing is rounded off by two card readers (MicroSD, SDHC, SDXC / MMC). The compact size, low weight and stowable connecting cable make the Multiport Travel Dock the perfect companion for traveling and trips.

The most important interfaces are always there – expands your notebook by 6 additional ports via one single USB-C™ port

- 1 x HDMI (UHD resolution, 4K/30 Hz)
- 2 x USB 3.0 ports for high speed data transfer, one with a charging function (BC 1.2) for mobile devices (5V/1.5A)
- 1 x USB-C™ port - Power Delivery (PD) 3.0 (100W, 20V/5A max.) + data transfer (5 Gbit/s max.)
- 2 x Card readers (MicroSD / SDHC, SDXC, MMC)
- Supports Ultra HD (30Hz), 3840 x 2160p resolution (HDMI)
- Stowable USB-C™ connecting cable (10 cm) – the connecting cable can be stored in the casing
- USB-C™ version: USB 3.1 (Gen 1)
- Premium aluminum housing
- Ultra-compact size as well as low weight – perfect for travelling and out and about
- Color: silver
- Dimensions: L 11.0 x B 6.1 x H 1.5 cm
- Weight: 100 g

- Not all USB-C™ ports support all features of the USB Type-C™ standard. Make sure your notebook's USB-C™ port supports DisplayPort Alternate Mode (DP-Alt Modi) and USB Power Delivery (PD).
- The video output capability depends on the graphic card of your notebook and the connected monitor. Certain graphics cards have limited MST support, while some monitors also limit the available resolution.
- The used power supply must supply at least 60 watts to power a connected notebook as well as the docking station via the USB-C™ port
- The used power supply must supply at least 60 watts to power a connected notebook as well as the docking station via the USB-C™ port

Safety notes

- Overloading can lead to overheating and damage to the appliance or the connected peripherals.
- If necessary, use an external power supply to ensure stable performance.
- If devices such as external hard disks or printers that require a high power consumption are connected, the device should be used with an external power supply. Otherwise, the device could be overloaded or functional problems could occur.
- Do not expose the device to rain, moisture, vapors or liquids.
- Do not insert any objects into the device.
- Do not attempt to repair the unit or open the housing without authorization. You risk an electric shock!
- Ensure adequate ventilation to prevent damage due to overheating.
- Dust, moisture, vapors and strong cleaning agents or solvents can cause damage to the device.
- Disconnect the appliance from the power supply and the connected devices before cleaning.

- Clean the device with a dust-free cloth.
