1200Mbps Wireless Dual-Band Mesh System Kit, 3 pcs 2.4/5.8GHz, WPS, 1x Lan, 1x Wlan

You can easily extend the range of your WiFi network with this repeater. Connect your devices to the Mesh set via the easy to use WPS function. More configurations of the repeater can be done effortlessly via the integrated WebUI at your PC or smartphone browser at any time. 2 omni-directional antennas provide loss-free reception and data transfer rates up to 1200 Mbps. At the basis device you can additionally use a cable-bound device by plugging an ethernet cable in the provided RJ45 socket. Many safety features like firewall, IP and Mac filter, as well as QoS functions complete the configuration possibilities of this WiFi Mesh system.
