

DIGITUS USB-C™ Smartphone Docking Station, 7 Port

DA-70882
EAN 4016032462873

Smartphone Dock, 2x USB 2.0, 1x USB 3.0 Hub 1x HDMI, 1x SD 2.0, 1x Micro SD 2.0

Use your smartphone as a desktop system? Not a problem with the smartphone docking station from DIGITUS®. Not only can you enjoy the content of your smartphone on a connected display in brilliant UHD quality, in desktop mode you can also use your smartphone in the same way as a normal PC system. With keyboard and mouse connected, the docking station is almost the same as a standard computer. Perfect for travel, when you have no notebook available or also for home use, for example to display videos, vacation pictures or other documents directly on a large screen. Displays with UHD resolutions up to 4K@30 Hz can be connected to the HDMI interface. There are also two USB 2.0 interfaces available, e.g. for keyboard and mouse, as well as a USB 3.0 port for additional devices with a higher transfer rate, e.g. hard drives or USB sticks. The integrated card readers for SD and microSD memory cards makes it possible to organize your media and files. Does almost everything you could possibly need. Transform your smartphone into a desktop system with the 7-port docking station from DIGITUS®.

Transform your smartphone into a fully fledged desktop system

Safety notes

- Use charging adapters or power supply units in accordance with the instructions in the operating instructions to ensure optimum performance.
- Connect the charging adapter to an easily accessible socket in the voltage range between 100-240 V AC.
- Disconnect the charging adapter from the socket after use.
- Do not use the charging adapter with electronic devices that are outside the specifications of the charging adapter.
- Do not expose the device to rain, moisture, vapors or liquids.
- Do not insert any objects into the device.
- Do not attempt to repair the unit or open the housing without authorization. You risk an electric shock!
- Ensure adequate ventilation to prevent damage due to overheating.
- Dust, moisture, vapors and strong cleaning agents or solvents can cause damage to the device.
- Disconnect the appliance from the power supply and the connected devices before cleaning.
- Clean the device with a dust-free cloth.
