16 Port 10/100/1000Mbps Industrial Switch Wall-mount and DIN-Rail

The DIGITUS® Industrial Gigabit Switch was designed for harsh environments in which it is exposed to moisture, temperature fluctuations and vibrations. With a temperature range from -40 °C to 80 °C, the Gigabit Switch with an IP40 housing can be used under the most adverse of conditions. Thanks to redundant power supply, it guarantees constant availability in highly sensitive sectors such as transport, production, transport and security surveillance. With its 16 Gigabit Ethernet ports, it is designed for a wide range of applications.
