Enrouleur de câble, 600 x 400 x 100 mm

The cable drum unwinder is indispensable for larger cabling projects, whether on construction sites or in server farms. It facilitates the torsion-free unwinding of drums of all kinds and protects the material at the same time. The dispenser is suitable for rolls up to 540 mm and is designed for drums weighting up to 150 kg. Due to the individually adjustable carrying drums, cable drums with a diameter of 102 - 600 mm can be accommodated. Due to its low weight of only 6 kg, the

unwinder is easy to transport. The galvanized steel makes the maintenance-free dispenser a durable, robust product.

Solution intelligente pour l'enroulement et le déroulement faciles de grands enrouleurs de câbles
