

DIGITUS Full HD Webcam 1080p with Autofocus, Wide Angle

DA-71901

EAN 4016032467588

Full HD 1080p Webcam Auto focus, Wide view angle

The high-resolution DIGITUS® Full HD Webcam with automatic focus always produces a crystal-clear image. It provides you with a steady stream of 30 frames per second that is always well lit thanks to the auto white balance (AWB) and wide dynamic range (WDR). The automatic focus range starts at 7cm and has no upper limit. Thanks to the integrated stereo microphone, you are perfectly equipped for video calls, video conferences and social media posts. Installation on your monitor is very easy, you can use the rubberized clamp mount or alternatively the integrated 1/4 inch screw thread, for example with mini tripods. You can rotate the webcam horizontally 360° and it can also be inclined upwards or downwards, ensuring an optimal configuration at any position on your desk or monitor. The DIGITUS® Full HD Webcam is ideal for home and office complications and simple to use: just plug it in and get started, Plug and Play.

Safety notes

- Make sure that the cable is not subjected to too much strain or damaged, as this can lead to short circuits or other technical problems. Avoid pulling or twisting the cable.
- Do not expose the device to rain, moisture, vapors or liquids.
- Avoid using the device near sources of strong electromagnetic interference (such as cell phones or large appliances).
- Do not attempt to repair the unit or open the housing without authorization.
- Dust, moisture, vapors and strong cleaning agents or solvents can cause damage to the device.
- Clean the device with a dust-free cloth.
- For headsets:
 - To avoid hearing damage, ensure that the volume is kept at a safe level. Very high volume levels can lead to permanent hearing loss.
 - Do not wear the headset for too long at a time to avoid skin irritation or heat build-up.

- Protect your headset from moisture and rain. Many headsets are not waterproof and could be damaged by moisture.
- If you experience pain, pressure or dizziness after wearing the headset for a long time, please stop using it immediately and consult a doctor if necessary.
- Make sure that the headset is compatible with the device you are using and is connected correctly to avoid technical faults or damage.
- For microphones:
- Make sure that the microphone is correctly aligned and not positioned too close to your mouth or other sound sources to avoid unnecessary noise or clipping.
- Make sure that the volume of the microphone in an environment with loudspeakers is set so that there is no feedback. This can lead to unpleasant noises and damage the microphone or speakers.
