

DIGITUS Wireless HDMI® Extender Set, 30 m

DS-55306

EAN 4016032455110

Wireless HDMI® Presentation System 10x1, up to 30 m, Full HD 1080p, 5GHz

The Wireless HDMI® Extender Set allows wireless transmission of HDMI® video and audio signals over a distance of up to 30 meters in unobstructed areas and up to 20 meters in obstructed areas. Very easy to operate and install. Real Plug & Play - plug in and get started straight away. Additional transmitters (DS-55307) allow the set to be expanded with up to ten additional transmitter units and turned into a wireless presentation system. Up to ten attendees (transmitters) can display their content on an HDMI® playback device (projector, monitor, TV). Change to the desired transmitter quickly and easily just by pressing a button to play your contents. The transmitters can be powered with the HDMI® connection of your device (>500 mAh required), or with the USB connection of your laptop, PC, etc. using the supplied micro USB cable. The receiver is powered with the included power supply. The Wireless HDMI® Extender is the perfect solution for meeting, conference or congress rooms thanks to its additional transmitters.

The wireless HDMI® extender set can be expanded with up to ten extra transmitter units (DS-55307) to turn it into a wireless presentation system.

- Transmission of HDMI® signals with a maximum resolution of 1080p / 60 Hz
